Science Concept Map

College | Biology, chemistry, and neuroscience

Name: _____ Date: _____

Connect structure, process, evidence, and scale. Use arrows labeled with precise relationship words.

CORE CONCEPT

Central term or process: _____

STRUCTURE + FUNCTION

What parts are involved? What does each part do?

MECHANISM

What causes the process? List the sequence and key conditions.

EVIDENCE

What observation, experiment, or data supports this model?

CONNECTIONS

Link the concept across molecular, cellular, organismal, or system levels.
