Does It Bounce? Predict and Test

Kindergarten-Grade 2 | Physical science | Adult-guided investigation | Ink-Saver B&W

Learner: _____ Date: _____

A grown-up gathers the four large safe items named below. Predict, then drop each item once from the same low height onto the same clear floor space.

1 **PREDICT EACH RESULT**

2 **DROP FOAM BALL**

3 **DROP RUBBER BALL**

4 **DROP BEANBAG**

5 **DROP DRY SPONGE**

6 **DRAW THE BOUNCES**

Grown-up check: A rubber ball usually bounces more than a beanbag or dry sponge; foam-ball results vary. Compare only drops from the same low height and surface. Adult supervises, clears the area, and uses items too large to swallow.
