Trace Gene Expression

Grades 11-12 | Biology | On grade level

Learner: _____ Date: _____

Put the molecular events in order and explain the role of each molecule using the central dogma.

DNA sequence is copied into messenger RNA.

Answer: _____

Messenger RNA leaves the nucleus.

Answer: _____

A ribosome reads mRNA codons.

Answer: _____

Transfer RNA matches anticodons to codons.

Answer: _____

Grown-up check: DNA -> RNA by transcription; RNA -> protein by translation.
