Oil and Water Layers

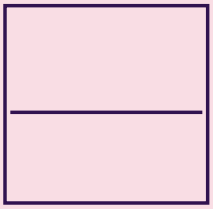

Kindergarten-Grade 2 | Physical science | Observation | Color

Learner: _____ Date: _____

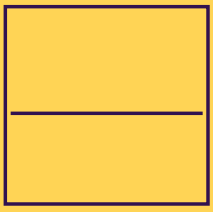

A grown-up adds a little water and cooking oil to a clear sealed container. Look, gently turn it, and let it rest. Do not taste it. Adult handles spills.

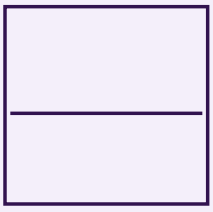

ADD WATER

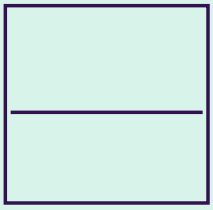

ADD OIL

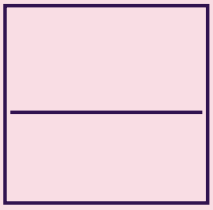

SEAL WITH ADULT

TURN GENTLY

LET IT REST

DRAW THE LAYERS

Grown-up check: Oil and water separate into layers after resting; oil usually forms the upper layer because it is less dense. Shaking makes temporary droplets.
