Which Paper Tears More Easily?

Kindergarten-Grade 2 | Materials science | Adult-guided test | Ink-Saver B&W

Learner: _____ Date: _____

A grown-up prepares equal strips of two safe papers, such as tissue and printer paper. Tear one strip at a time with dry hands. Stop if the sound or feel is uncomfortable.

1 **CUT EQUAL STRIPS**

2 **NAME PAPER A**

3 **NAME PAPER B**

4 **TEAR PAPER A**

5 **TEAR PAPER B**

6 **COMPARE THE FORCE**

Grown-up check: Results depend on the paper types and strip sizes. A fair comparison uses equal-size strips and the same tearing motion. Record which needed less force; there is no universal winner for every paper pair.
