# Which Paper Tears More Easily?

Kindergarten-Grade 2 | Materials science | Adult-guided test | Color

Learner: _____ Date: _____

**A grown-up prepares equal strips of two safe papers, such as tissue and printer paper. Tear one strip at a time with dry hands. Stop if the sound or feel is uncomfortable.**

**1** **CUT EQUAL STRIPS**

**2** **NAME PAPER A**

**3** **NAME PAPER B**

**4** **TEAR PAPER A**

**5** **TEAR PAPER B**

**6** **COMPARE THE FORCE**

**Grown-up check: Results depend on the paper types and strip sizes. A fair comparison uses equal-size strips and the same tearing motion. Record which needed less force; there is no universal winner for every paper pair.**
