Water Cycle: Put It in Order

Grade 2 | Earth science | Sequencing | Color

Learner: _____ Date: _____

Use this simple model: the Sun warms water, water vapor rises, droplets form clouds, and water falls. Number the stages and answer the questions.

TRY IT

Complete all six prompts. You may write, point, explain aloud, or use a scribe.

1 ____ **Water falls as rain.**

_____

2 ____ **The Sun warms water.**

_____

3 ____ **Tiny droplets form a cloud.**

_____

4 ____ **Water vapor rises.**

_____

5 **What provides energy?** _____

_____

6 **One repeating-cycle idea:** _____

_____

Grown-up check: Order by listed rows: 4, 1, 3, 2; the Sun; answers vary but should note that collected water can be warmed again.
